They can be purchased for \$1.50.

Presbyterian Circle Meeting Held Tuesday, Aug. 7

The Presbyterian Circle of the Wo-

SATURDAY DINNER AT YACHT CLUB WELL ATTENDED

This past week the following enjoyed dinner at Bay-Waveland Yacht Club:

Judge and Mrs. Rene Viosca, Mr. and Mrs. Emory L. Miller, and Mrs. Robert Miller, Mr. and Mrs. J. J. Stark, Mrs. H. G. Walcott, Miss Marjorie Waldo, Francis Walcott, Mr. and Mrs. A. J. Jimison, Mr. and Mrs. George Lehman, Mr. and Mrs. D. C. Ryan, Mr. and Mrs. H. R. Ryan, Mr. and Mrs. A. Whalen, Mr. and Mrs. Samuel, Mr. and Mrs. L. Braun, Miss Evelyn Brauer, Mr. Selma Braun, Mrs. Marie Theard, Mr. R. L. Laccagnese, Miss Reginald Elieze, Mr. L. L. Kelleher, Clary

men of the Church of Bay St. Louis held its sixteenth meeting at 636 North Beach Boulevard, Tuesday, August 7. Miss Madge Allred gave the opening prayer and the allotted emphasis "Families Can Enjoy Recreation Together." The Bible Study was "The Fourth Commandment."

Visitors were Mrs. J. C. Crane, Mrs. Stanley Bailey and Mrs. Harold Barker, of Gulfport, Miss.

Refreshments were served following the meeting.

The next meeting will be held at 7:45 p.m. Tuesday, Sept. 4.

Brauner, Mr. and Mrs. D. G. Grissom, Mr. and Mrs. H. Ratenberg, Mrs. L. M. King, Mrs. Mabel Collier, Mr. and Mrs. J. W. Hill, Jr., Bill Lins, Rafe Silverstein, Mrs. Katharine Silverstein, Mrs. J. N. Sokohl, Miss Robinson, J. C. McDonald, Miss Silverstein, C. C. McDonald, Mrs. C. C. McDonald, Mr. and Mrs. J. S. Fraering, Mrs. Howard T. Mr. and Mrs. Rudolph Vorchus, Fraering, Miss Mary Leigh W. Mr. and Mrs. C. Fraering, Jr., many others.

Father Clarence J. Howard, S. V. D.
Appointed For New Guinea Mission

Bay St. Louis.—The Rev. Clarence J. Howard, SVD, well known orator, editor and retreat master has been appointed by the General Council of the Divine Word Missionaries in Rome "to establish and direct" a regional seminary in Central New Guinea for native seminarians. The seminary will be under the patronage of the Most Rev. Leo Arkfeld, SVD, DD, Vicar Apostolic of Central New Guinea.

Father Howard was born at Rocky Mount, North Carolina. He entered St. Augustine's Seminary, Bay St. Louis, Mississippi in the fall of 1926. After his ordination to the Holy Priesthood in May, 1937, Father Howard obtained his first priestly experience as an assistant pastor in Lafayette, La. In 1940, he was steered into the post of editor

of articles were the products or his personal experiences and the fruit of direct and penetrating observation. Messenger took on new zest after that.

Possessor of no mean literary and adequately gifted with the gift of persuasion, Father Howard has earned recognition for the work of the Divine Word Fathers through his sermons as a pulpit and platform speaker. God has endowed him with a talent and has thus far enabled him to use it.

In the summer of 1949, this Louisiana superior in Rome displayed sufficient confidence in his capabilities to appoint him Assistant Provincial of the Southern Province of the Divine Missionaries. His capabilities have been thoroughly exercised at this time.

of St. Augustine's Messenger. This position abounded in such extracurricular activities as giving parish missions, retreats, and talks in a great variety of places for a great variety of occasions. Father found himself journeying far and wide, found himself making contact with a large number of priests and religious of different congregations who are active in the Negro Apostolate, found himself discovering America and noticing not only its glory, but its shame.

Whenever he returned to his base of operations at St. Augustine's, Father would find himself surrounded by his parishioners and hear them read the "Messenger" and trace some of the

It Is Everybody's Fight To STAMP OUT POLIO — NOW!

The horror of a disease is soundly felt only when it strikes in our midst and explodes in our neighborhood like a bomb. We have all read pamphlets, heard radio programs and listened to the pleas of council workers in the interest of the fight against polio, but the word doesn't strike the right chord until the germ itself is firmly imbedded in the community with all its terror.

Early this week, the second of our children in Hancock County was stricken by the dread disease in a month. This time the disease arose in one of our small citizens right here in Bay St. Louis. The malady is closer now to many of us than it has ever been in our lives and should serve as a warning to awaken us to the fight. No one is safe. And, at this time, with even the weather seemingly against us with its 100-degrees of temperatures persisting, we are bound together in this common cause to take precautionary steps to prevent children contracting this disease—and at the same time, protect adults also. Consult your physician or procure information from the local Health Department as to best methods of combating this public—and strictly personal—enemy.

Meanwhile we suggest you review the Do's and Don'ts of the National Foundation for Infantile Paralysis.

DO remember—at least half of all polio patients get well without any crippling; DO allow children to play with friends they have been with right along. Keep them away from new people, especially in the close daily living of the home; DO wash hands carefully before eating and always after using the toilet—especially important when polio is around. Also keep food clean and covered. DO watch for signs of sickness, such as headache, fever, sore throat, upset stomach, sore muscles, stiff neck or back, extreme tiredness or nervousness, trouble in breathing or swallowing. DO put a sick person to bed at once, away from others, and call the doctor. Quick action may lessen crippling. DO telephone your local chapter of the National Foundation for Infantile Paralysis, if you need help. Locate through telephone book or health department. No patient need go without care for lack of money. Your chapter will pay for treatment you cannot afford.

DON'T get over-tired by hard play, exercise, work or travel. This means men and women as well as children. DON'T get chilled. DON'T bathe or go swimming for long in cold water or sit around in wet clothes. DON'T have mouth or throat operations during a polio outbreak. DON'T use another person's towels, dishes, tableware or the like. DON'T take children to places where there is polio. Ask your health department. DON'T take your child out of camp or playground, where there is good health supervision.

For more information about polio write: The National Foundation for Infantile Paralysis, 120 Broadway, NY 5.

This will be of individual benefit, in helping to stamp out the possible spread of polio.

It is not our policy to frighten the public—only awaken the individual!

FRENCH YOUTH ENDS VISIT TO MISSISSIPPI

Louis Rerolle, a 22-year-old French farm boy, this week completed a 40-day visit to Mississippi. He thinks his time has been well spent, and that he will be able to make some improvements in the management of his father's 1200-acre farm when he returns. Louis is visiting in this country under the

auspices of the International Farm Youth Exchange. He belongs to Youth Circle in France, an organization similar to the 4-H Club in America. While in this state he has been the farm guest of several 4-H boys. He also attended the 4-H Club Congress at State College in June. Meanwhile, a 4-H boy from Pike County, Ecco Wilkama, is visiting French farms.

THANKS

I wish to express my thanks and appreciation to the voters of Beat 5, Hancock County for the support given me in the election of August 7.

Gratefully,

J. E. (Joe) LOIACANO

THANKS

I wish to thank the voters of Beat 5, Hancock County who supported me in the Democratic Primary August 7. I am sincerely grateful to them.

Sincerely,

THEODORE THOMAS

LANDER NECAISE

ARMY PLANS TO ROTATE ALL GIs IN FAR EAST

Tokyo—The Army's policy of rotating its personnel in Korea back to the United States will be extended Sept. 1 to include all soldiers in the Far East Command, Brig. Gen. Bryan L. Milburn, assistant chief of staff, announced this week.

Soldiers in Korea have been eligible for rotation after serving a minimum of six months in close combat.

Milburn said enlisted personnel in Korea who met minimum requirements before June 1 will be returned home, if possible, prior to Sept. 1. Officers in this latter group, he added, will be rotated as soon as possible but not necessarily before the expanded program becomes effective.

The announcement did not specify what minimum service would be required but said rotation "would depend on the number of replacements available."

In computing time served in the Far East, combat soldiers will get credit for four months for each month actually served. In other words he will qualify for rotation twice as fast as a soldier in a non-combat area of Korea who will get credit for two months for each one served.

In Japan, unmarried or married soldiers with their families will get credit for time actually served. Married men whose families have not been with them subsequent to July 1, 1950, will get credit for a month and a half.

Within the Far East command, soldiers can request transfer to another unit after two years. In the case of a combat soldier, this would mean he could apply for duty in Japan after six months.

TURTLE CAUGHT

New Orleans—A 550-pound leathery turtle, caught in a shrimp net in the Gulf off Grand Isle, La., now makes his home in the Audubon Park zoo.

The turtle, an oceanic animal found usually in the Pacific and Indian oceans is an estimated 10-15 years old. The species is the last left of a series of forms. The other became extinct 500,000 years ago.

The turtles, which have no visible shell, weigh 1,800 pounds at maturity and live to 200 years of age.

LEOPARD SKIN RUG NOT WORTH MUCH

Denver—That leopard skin rug sent home from Korea by a GI and which the Korean ambassador thinks may be worth \$100,000 may not have much monetary value after all.

A Denver furrier who appraised it said it is "practically worthless" except for whatever sentimental value it may have to Koreans.

The furrier, who declined use of his name, said the rug is full of moth holes, the leather is rotting and if cleaned the rug probably would disintegrate.

Sgt. Elvira H. Giltner sent the rug to his parents, Mr. and Mrs. Frank W. Giltner at Pueblo. He said he sold \$61 for it. A US customs agent took charge of it Tuesday, bringing it to Denver.

GRANTS MADE—TWO STATE INSTRUCTORS

Two grants have been made to assist two Mississippi State College instructors, Clifford Arlie Wilson, assistant Professor of zoology and botany, and R. B. Clement, biology instructor, to spend the summer in research this summer. Mr. Wilson will collect and study marine animals and bring back specimens for the zoology and botany museums. Mr. Clement will collect and identify animals and bring back specimens for the biology department's museum.

Marriage is a wonderful institution and it makes the divorce court.

**MADE RUTH LEFT NET
ESTATE OF \$360,000**

New York—Ebbe Ruth, who made a net worth of \$1,425,000 in a quarter century of baseball, left a net estate of \$360,000.

Paul Simon on the estate—whitened by the home run king's—were approved by Esau, the baseballer Samuel E. Lepier, who died of cancer three years ago at the age of 53, left his widow in interest in a \$179,611 trust fund in the estate after all other be-

quests are taken out. The widow, Mrs. Clara Mae Ruth, also got \$5,000.

When the widow dies, ten per cent of the wealth goes to the foundation that Ruth dedicated to "the Kids of America." The other 90 percent will go to two adopted daughters, Julia Ruth Landers, of Kearsarge, N.H., and Dorothy Sullivan Ruth Tiron, of New York. Each also receives \$5,000 outright.

Baseball trophies and mementoes valued at \$1,175 were willed to the Baseball Hall of Fame at Cooperstown, N.Y.

**STENNIS GLAD PLAN TO
CUT SOIL FUND FAILED**

Washington—Sen. Stennis (D-Miss.) says he is highly gratified that the Senate defeated a proposal to reduce soil conservation funds.

Stennis spoke against the proposal of Senator Dirksen (R-Ill.) to cut those funds in the Agriculture Department appropriation bill for the year which started July 1 from \$280,000,000 to \$150,000,000.

The amendment was defeated 41-36. Stennis said the program involves the resources of the country.

He said he rejected the idea that the program is a "matter of paying out money to the farmers."

"The farmer holds the land in trust for future generations," he said, "and I think this is a government program which works with him while he is the custodian of the land for his generation, in improving it for the future."

Stennis said he isn't interested in the program as a source of income to any farmer. He added:

"I do not believe that it could be justified on any such basis as a matter of principle; rather it goes to the long-range, overall, and basic fertility, conservation, protection and upbuilding of our soil, which is the ultimate source and the real source of our sustenance and the strength of our nation."

**CHRYSLER SALES
CONTINUE HIGH**

Chrysler has shipped its 113,000th car equipped with power brakes, reports J. A. O'Malley, Vice-President and General Sales Manager, Chrysler Division, Chrysler Corporation.

"Power braking was developed by Chrysler before the war to provide extra safety for fast stops," O'Malley said. "It has proven very satisfactory in the hands of owners who have given the equipment a grueling test in millions of miles of highway driving."

The power brake unit is self-contained and utilizes intake manifold vacuum to multiply the braking power of the hydraulic brake system, O'Malley said.

"Chrysler power braking provides the driver with the proper 'feel' from the brake to enable him to determine the right amount of pressure to apply," O'Malley explained. "For fast stops at high speeds, it requires only one-third the pedal pressure required to stop a car not equipped with power brakes."

Power brakes are standard equipment on all Chrysler New Yorker, Imperial, and long-wheelbase Windsor models and they will be standard on the Sarago models which are being introduced this month. They were first introduced as optional equipment in 1933 on Chrysler Imperial models.

**FISH LAW SUIT TO BE
STUDIED IN N. G. COURT**

New Orleans—A special three-judge federal court has under advisement a suit by Alabama and Mississippi fishermen attacking the constitutionality of restrictive Louisiana fishing laws.

Fishermen from Mississippi and Alabama testified before the court that the Louisiana laws were "unconstitutional."

They contended that in the same way, each species of fish and shrimp is a distinct individual to days and weeks of investigation and testing by traffic engineers in their efforts to determine at what speed, and under what conditions, the road may be safely traveled.

Entering into this, they said, are studies of the road surface; what effects various weather conditions have on it; topography of the country through which the road passes; principles of traffic; and other factors that seldom occur to the average driver.

They emphasized that no traffic sign or signal is thrown up at random simply because it is found lying around in the sign shop.

Meanwhile, officials of the Safety Council Headquarters in Jackson, estimated that for every "100 drivers involved in a fatal accident there are about 22 cases where a sign, signal, or traffic officer had been ignored."

These officials pointed out that over-familiarity with the traffic sign, signal, and regulations in any territory frequently traveled by a driver tends to dull his alertness and make him a potential accident victim.

One official declared flatly that "for every driver involved in an accident who genuinely doesn't see the traffic sign or signal, there are probably a hundred who do see it and either fail to comprehend its meaning in time to avert a crash, or stupidly ignore it."

The official is A. S. Windham, executive director of the Council's State-wide office headquarters.

Warning of this tendency, council officials cautioned all drivers to regard all street and highway signs as, "signals of danger."

**POSTAL WORKER PLAN
IS DROPPED**

Washington—A Senate-House conference committee Friday dropped a proposal that some 500,000 postal workers be given five additional days of vacation. Most of them now get 15 days.

The decision was reached as the committee approved the treasury-post office appropriations bill. It said annual leave for postal and other government workers should be settled by separate legislation.

The compromise bill carried \$2,982,398,000 or some \$30,000,000 below the President's budget requests. The treasury total was \$3,012,397,000 and the post office, \$2,982,398,000.

Lines of Defense!

Mississippi's rapid growth, agriculturally and industrially, during the past five years has demanded greatly expanded telephone facilities—and Southern Bell has responded by increasing the number of telephones in the state from 103,269 on January 1, 1946 to more than 230,000 as of June 1, this year.

The principal purpose of these additional telephones and the thousands of miles of wire connecting them has been to increase the efficiency and productivity of our farms and factories. Now they are to become part of our lines of defense by helping to speed preparedness.

Preparedness demands even more lines of communication—alternate routes to guard against interruptions in case of attack; more lines to serve newly activated camps and bases; to form a network of air-raid warnings; to act as a nerve-center to bind our whole defense system closer together.

For these precautions, your Telephone Company must spend millions of dollars!—This money cannot be taken out of earnings from telephone rates; it must be secured from investors who are satisfied with the dividends we pay. Yes, the needs of our nation, of the people who work for us, and of those whose money works for us, demand that our earnings be maintained at a reasonable rate.

**MISSISSIPPI TB SANATORIUM
CONSIDERED TOPS IN NATION**

Few states in the nation can boast better hospital facilities for tubercular patients than the Mississippi State Sanatorium which in the past 24 months has watched the death rate from this dread lung disease drop from 3300 in 1916 to 558 last year.

The modern, highly rated institution, located in a quiet spot, 43 miles south of Jackson at U.S. Highway 49, is today caring for between 400 and 500 patients daily, and will soon have facilities to handle an additional 100 negroes.

Dr. Henry Boswell, affable superintendent whose guiding hand and patient devotion to the institution has been largely responsible for its remarkable growth and development since it was first opened, is particularly proud of the new hospital for negroes which opens this month.

Dr. Boswell describes the \$1,875,000 completely equipped infirmary as better than anything in existence for negro tubercular patients, among whom the death rate is normally 2 1/2 times greater than for white persons infected.

Opening of this new infirmary at the sprawling "San," as it is often called, is a far cry from the original two small frame buildings established through a \$250,000 legislative appropriation made in 1916. "We could accommodate only 40 patients when we opened," Dr. Boswell says, "and we had ten patients the first day." Today the institution operates on a \$1,400,000 annual appropriation.

The Sanatorium now cares for about 30 per cent of active tubercular cases in the state and has long waiting lists of persons seeking admission.

More than 50 per cent of these cases are made concerning negro patients," Dr. Boswell says. "They usually have the acute type and the death rate is greater, particularly where treatment is not available."

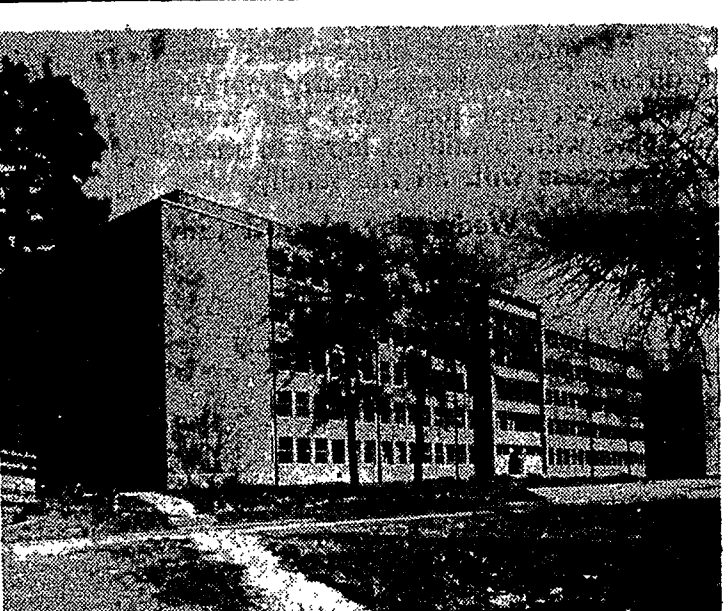

The special superintendent accepted in staff the new hospital with negro doctors, but has been successful. Boswell was a faculty member at the University of Mississippi and a member of the American Medical Association. The number of negro physicians, however, the latter case has not even received answers. As a result, he is asking members of his present staff to operate the hospital, which will be completed within 10 months and operated under the institution's administration.

"We already have more than 100 applications on hand for admission to the new addition," Dr. Boswell revealed.

The first negro building was completed in 1934-35 but accommodations only 20 beds. The new building, which is completely equipped for treatment of 100 patients, is the largest of its kind in the South.

Dr. Boswell's first real interest in tuberculosis, which Dr. Boswell followed along as best as he could, was evidenced by the fact that he was the first to bring to the attention of the state the need for a tuberculosis hospital for negroes.

Dr. Boswell's first real interest in tuberculosis, which Dr. Boswell followed along as best as he could, was evidenced by the fact that he was the first to bring to the attention of the state the need for a tuberculosis hospital for negroes.

Shown above is the new \$1,875,000 negro infirmary at the Mississippi State Sanatorium in South Mississippi. The fully equipped new hospital will provide facilities to handle an additional 100 negro tubercular patients. It is one of the most outstanding hospitals of its kind for negroes in the nation.

Dr. Henry Boswell, superintendent of the Mississippi State Sanatorium, right, poses with a member of his staff and a group of youthful patients at the children's quarters. The first building to house children at the institution was erected in 1925. It provides facilities for about 50 children.

In addition to the numerous buildings covering the beautifully landscaped, park-like grounds, the Sanatorium boasts a 343-acre farm which turns a neat profit of \$25,000 annually.

Dr. Boswell is proud of what he terms "one of the best herds of registered Jersey dairy cattle in the South." The dairy and a poultry unit provide all the milk and eggs for the institution, which at one time had to import such products from the mid-west.

"The Legislature thought well enough of the project at its last session to vote \$50,000 for the purchase of additional land for the farm."

Mississippi's progressive sanatorium may well take credit for at least a percentage of the steady annual reduction in death from tuberculosis since 1921, but Dr. Boswell attributes the decline to three things:

Treatment, education and the improved economic status of Mississippi people.

Although not all patients can be cared for, the institution conducts clinic examinations six days a week and is usually booked three weeks in advance. Charges for such examinations and for treatment at the Sanatorium are made on the basis of the patient's ability to pay. This is also true of the surgical unit where chest operations are performed.

Although a few Mississippians probably realize or appreciate the value of their Sanatorium, it has been recognized by the American College of Surgeons since 1925. Last year the institution was rated 90 per cent perfect, receiving 892 of a possible 885 points, and many of the points which points are facilities on which points are based are not essential to this type hospital.

REPORT ON DRAFT TESTS RELEASED

38 Per Cent of Collegians Failed Aptitude Exam

Washington—Selective Service reported Tuesday that 38 percent of the college students who took the first draft aptitude test flunked it.

But 40 percent of the poorer students who would not have rated as college students in the first place, failed the test with scores of 70 or better.

In the upper portions of classes, the percentage of passing grades was 75.

Local draft boards have been asked to give a score of 70 or better the same consideration, as a basis for deferment, as is given to a student ranking in the top half of the freshmen class, top two-thirds of the sophomore class, or top three-quarters of the junior class.

About 62,700 of the 165,000 college men who took the first test May 26 failed to make the passing score.

Altogether, 339,056 college men have taken the tests, in a series extending into July. Scores of the later tests are yet to be analyzed.

Selective service said that in the initial test on May 26, scores of 70 or better were made by 53 percent of 42,500 freshmen, 64 percent of 53,000 sophomores, 72 percent of 44,000 juniors and 77 percent of 18,500 seniors.

Seniors going on to graduate work were required to make a score of 75 or better, or to stand in the upper half of their classes, to gain a claim to deferment.

Although students in graduate and professional schools were not required

DISALLE SAYS MEAT CONTROL WEAKENED

New York—Price Control Director Michael V. Disalle predicted that a "maldistribution" of meat will occur as a result of recent changes in the price control law.

Moreover, he said, both meat price control and price roll-backs will be difficult to achieve.

Disalle spoke at a midsummer conference of the United Jewish Appeal, Jewish fundraising organization.

"Instead of strengthening the act, I think they have weakened it substantially," he said.

The price chief particularly assailed amendments which he said prevent imposition of slaughtering quotas and which put difficult limitations on price roll-backs.

A report from the Bureau of Agricultural Economics showed that Mississippi farmers have planted about two percent more land in crops this year than in 1950. The report showed that as of July 1 of this year 2,625,000 acres of cotton were in cultivation in Mississippi. This is 26 percent more than a year ago, but eight percent less than in 1949. However, with the exception of 1949, it is the largest Mississippi cotton acreage since 1940.

REPRESENTATIVES TEN STATE COLLEGE STUDENTS PASS EXAM

Jackson—Secretary of the Treasury John W. Snyder has invited representatives of Mississippi industry, banking, labor, retailing, education and agriculture to Washington for a series of scheduled conferences beginning Aug. 1 and ending Aug. 14, to plan the first Defense Bond Drive beginning on Labor Day, September 3, and extending through October 27.

Industry is represented by Rex L. Brown, President of Mississippi Power and Light Company, and George A. Huth, President of Mississippi Products, Inc., Jackson, Miss. L. G. Simmons of Pontotoc, Mississippi, President, Mississippi Bankers Association, Frank McGahey, President, Bank of Greenwood, and Leigh Watkins, Jr., Secretary, Mississippi Bankers Association, represent banking in Mississippi. The retailers are represented by Sam Millstein, President, Millstein Department Store, Jackson, Miss. W. L. Hines, President, Mississippi State Federation of Labor (AFL) and K. W. Walker, Sub-Regional Director of Industrial Organizations (CIO) will represent organized labor. Agriculture is represented by Boswell Stevens, Macon, Miss., President, Mississippi Farm Bureau, and the schools of Mississippi are represented by Floyd C. Barnes, Executive Secretary, Mississippi Education Association.

These leaders in conferring with Treasury Officials will devise plans for the state to meet a Defense Bond quota.

The best way to work is to stop trying to get somebody else to do your work.

STUDENTS PASS EXAM

State College, Miss.—Two out of three of the students who took the first draft aptitude test passed before the Mississippi examination. The state board of education, in cooperation with the American Association of Accountants, is conducting the examination.

WEDDING
By G. G. Smith
Miss George Ellen, Mrs. J. W. Moore, Miss Jane O'Neil, Miss Mary, Miss Ruth, enjoyed an evening of dancing and refreshments at the home of Mrs. J. W. Moore, 1515 N. 1st St., on Saturday night. The party was given by Mrs. J. W. Moore and her daughter, Miss George Ellen. The party was a success and all enjoyed it very much.

MR. UNIVERSE AT STAR
THURS. & FRI., 16-17
The sport that everyone seems to like best of watching is the subject of what is supposed to be one of the best of the year's most hilarious comedies, "Mr. Universe," which is slated to open here next Thurs. & Fri., Aug. 16-17 at the Star Theatre.
The star-packed film (what a cast—Jack Carson, Janis Paige, Robert Alda, Bert Lahr, "Slaple," Madea, Robert Bloom, Joyce Matthews and the Cope Girls) features a new-comer, Vincent Edwards, in the title role and he's a sure bet to throw the fans as surely as he throws his opponents in the wrestling ring.
In fact, that's just the trouble with "Mr. Universe" (the character that is not the picture)—he's just too good. When a couple of promoters, played by Jack Carson and Bert Lahr, sign up Universe for a series of wrestling bouts, they soon realize that his quick victories are killing the wrestling game and try to get rid of him.

LAND SPECIALIST ASKS LAND CARE
Says Pastures Can Be Kept Up with Fertilization
State College, Miss.—Keep good pastures good with annual fertilization and renovation, advised W. R. Thompson, extension pasture specialist.
Pastures, properly fertilized, seeded with the right kinds and amounts of seed at the right times, will be good for a year or two, he said. "However, if not refertilized they will fade out."
One of the main problems on pasture today is that of keeping them good; overgrazing combined with lack of fertilizer makes once good pastures poor, the pasture specialist reminded.
"On pastures that were once good, refertilize with the correct amounts of the right kind of fertilizer and if overgrazing has been done, renovate," he recommended.
Two methods to use when refertilizing pastures are to topdress and do no renovation; the other is to apply fertilizer, then run a spring tooth cultivator or a heavy disk set at an angle so that it will not do too much tearing up, he said.
On bare sloping land, fertilizer that is top-dressed may be washed off by surface rain water. A renovating tool on this type land will do three things to help the pasture, he said.
It will keep the fertilizer from washing off; get the fertilizer down to the grass roots where it will be available for immediate use; and help to cultivate the grass roots which makes for faster growth.
On pasture land that has deteriorated to the extent that reseeding is needed, seed following renovation, he advised. It will pay to run the cultipacker following seeding and renovation.
Pasture renovation has been named "one of the most important methods of improving permanent grasslands," by Dr. W. M. Myers, head, Field Corps, USDA, Beltsville, Md.
While most farmers will not go back and reprepare the grass area that was once good, they will go back and renovate, refertilize and, if necessary, plant more seed, Thompson said.
Demonstrations in Mississippi have shown that dallis and white clover areas that appeared bare before renovation and fertilization in September, became green once again with both dallis and white clover after refertilization and renovation. Areas that were fertilized but not renovated did not come back as rapidly as those that were renovated, he pointed out.
Management, he said, is the secret to keeping good pastures regardless of how they were started or which method is used to bring the pastures back.
Advising farmers to make their pasture plans to include refertilization and renovation, Thompson listed knowing when to turn the livestock in and when to turn them off the pastures as two of the most important aspects of management.
A misguided girl who is foolish enough to fall in love with Jack Carson and the Cope Girls are cast as the Cope Girls.

CHRYSLER, FORD SEEK PRICE HIKES
Washington—Ford and Chrysler have formally applied to the office of price stabilization for auto price increase ranging from 9.18 percent to more than 10 percent under the new control law.
The OPS said it is taking the applications "under study."
Ford Motor Co. requested a 9.34 percent increase on its entire line of Fords. It requested a 9.4 percent boost on the Lincoln and 10.34 percent on the Lincoln Cosmopolitan.
For the Mercury, an exception to the general pattern of applications filed, the requested increase was 4.85 percent.
The Chrysler Corporation requested a 9.67 percent increase on its line of Plymouths, 9.18 percent on Chryslers, 9.52 percent on the Dodge, and 9.74 percent on the DeSoto.

CHANCERY SUMMONS
THE STATE OF MISSISSIPPI
To Heirs at Law of Mrs. Ethel Bove Schwartz, deceased.
You are summoned to appear before the Chancery Court of the County of Hancock, in said State, on the Fourth Monday of October A. D. 1951, to defend the suit No. 6144 in said Court of Mrs. Genevieve H. Molere, Complainant, wherein you are a defendant.
This 25th day of July A. D. 1951.

You're invited to meet "the future"...
at your Chrysler Dealer's NOW!
1 **COME DRIVE 180 HORSEPOWER!**
While others talk "laboratory engines," Chrysler brings you FirePower now! FirePower's revolutionary new design brings new ruggedness, reliability and smoothness of operation. Even on non-premium grade gasoline FirePower gives amazing new performance no other American passenger car can equal.
2 **COME FEEL POWER BRAKING!**
Not just "coming sometime" but here right now! Smoother, easier, safer, than any brakes you've known. A special power unit helps you apply your brakes at the touch of your foot on the pedal... cuts foot pressure required by as much as two-thirds!
3 **COME TRY HYDRAGUIDE POWER STEERING!**
Others may have it "some day." Only Chrysler has it now! At your touch on the wheel, hydraulic power does four-fifths of the steering work for you... gives steering safety and ease... steadiness in ruts or soft shoulders... you can't imagine till you feel it!
4 **COME RIDE ON ORIFLOW!**
Notice the difference on rough roads especially... feel for yourself the truly amazing stability... new comfort and new safety... of new-type Oriflow shock absorbers having over twice the ride-steady control of those on any other manufacturer's cars!

Signatures

When it comes more to the point in Oscar Wilde's "The Picture of Dorian Gray" that the artist's soul is sold to the devil, we cannot help but think of the artist's soul as being sold to the devil. We cannot help but think of the artist's soul as being sold to the devil. We cannot help but think of the artist's soul as being sold to the devil.

An interesting story has reached my desk which goes something like this: "The young man astride the prancing jumper patted the animal's neck reassuringly. 'A little higher, boy,' he told his mount soothingly. 'Another six inches and we'll clear the hurdle easily this time.' Then, at a touch of the rider's quirt, the horse made his fast approach to the barrier and sailed over the bar cleanly."

CONGRESSIONAL SIGNATURE

CONGRESS IN HIGH SPEED
During the first few months of this session of the Congress, which began last January, Congress marked time. There were a number of reasons for this, aside from the ordinary time consumed in the organization of a new Congress. One of these factors was the fact that the Administration was slow in making its recommendations upon matters involving foreign affairs. This, of course, was due to the fact that the Kramlin was calling the signal and it was necessary for the Administration to meet problems from day to day. Incidentally, this will continue to be true so long as the Kramlin is permitted to dictate the terms of the situation in one kind or another, which usually winds up with a case of self-inflicted embarrassment.

Now what in the world could Mr. Terrill have accomplished by such a procedure, unless it were some sort of satisfaction that he got the penny back—but did he? By the time he paid his lawyer and possibly the cost of court, he surely must have considered it an expensive lesson to his ego. Don't you agree?

COAST-TO-COAST

Radio Between NY and LA Will Be Used
New York and Los Angeles will be connected by a microwave system. The present Bell System TV network facilities consisting of both microwave and coaxial cable directly connect 43 cities and serve more than 100 million people. Those 43 cities have about 11,046,000 sets, out of a national total of 15,093,000.

PARALYSIS CASES IN MISS. TOTAL 181
Jackson, Miss.—The number of infantile paralysis cases in Mississippi was reported Friday (Aug. 3) to total 181, 50 more than on Aug. 2 last year. The National Foundation for Infantile Paralysis said 101 cases were reported in July—the highest single month on record—and another 16 cases were diagnosed during the first two days of August. Last July had 61 cases reported. Forty-three of the cases are concentrated in Sunflower County among a Negro population living north of Indianola. Dr. Linbeth Kraft, a research scientist with the Yale research center arrived in Jackson last week en route to the Sunflower County area to study the situation. Four iron lungs, one from Pascagoula, another from Birmingham and two from Atlanta were flown to Vicksburg during the past few weeks to help care for the 85 patients in the two polio centers there, the foundation added.

CEASE FIRE

In between legislative problems, the members manage to find enough time to keep up with what is going on in Kaesong, Korea. The fact that it took nearly thirty days for the representatives of the United Nations forces and the Communists to agree upon an agenda for the discussions on a cease fire order in that bedeviled peninsula is prophetic of what may be expected when it comes to agreeing upon the cease fire order itself. The armistice in World War I required four days, as we recall it, and the surrender of Japan after practically a month on agreeing on what they would discuss when they met to seek a cease fire order.

This runs true to Communist form. Always bear in mind that while the Communists don't want war, they don't want peace. Communism thrives upon confusion and chaos. And while there is no assurance even now that an agreement will be had between the negotiators stopping the war in Korea, there is one thing certain and that is the Communists will throw every hurdle, roadblock, and obstacle into the discussion leading to such an order that they possibly can. So do not be surprised that if thirty or sixty days from now negotiations will still be going on—unless we become convinced that they are playing a trick and break off the negotiations ourselves. There is always a possibility that this is but another Trojan horse and the Communists are playing for time to build up their forces.

ter a polite smile after I heard it the third time and it was a terrific strain on what sense of humor I had left. Finally I asked her bluntly how she could continue to get a kick out of such repetition. This was her reply: "The joke has been dead a long time, and well buried. I am not laughing at the joke, but at the fact that Jack seems so ridiculous in his innocence. He does not even realize that he has told me that same story a dozen or more times, and that seems very funny to me." Well, I would have voted that she had more sense of humor than anyone I had ever encountered, but at that, she had something in her theory, I guess.

Have you ever cooked cauliflower leaves? Save them next time. They taste like celery when cooked. Cauliflower with mushroom sauce is a favorite recipe for special dinners. Pour a can of mushroom soup with one-half cup of milk over the flowerettes in your pressure cooker. Season to taste. Cook at 15 pounds pressure for 20 minutes. Cool the cooker at once, and serve. And before cantaloupes go out of season try vanilla ice-cream with cantaloupe-line sauce, after the following menu:

- Chilled cucumber soup
- scalloped potatoes
- sliced smoked tongue
- Summer salad
- Rolls
- Beverage
- and vanilla ice-cream with cantaloupe-line sauce, made this way:
- One half cup light cream
- Dash of salt
- 1 pt. vanilla ice cream
- 1 small lime
- 1 1/2 cups finely diced cantaloupe

Have the cream and the salt in a small saucepan over a moderately low heat to boiling. Meanwhile cut the lime in half. Extract the juice from one-half and slice the other half in very thin slices. Stir the lime juice and the salt into the cream and boil for 10 minutes. Chill. Pour the cold lime juice over the cantaloupe and add the cantaloupe to the cream. Serve over vanilla ice cream. This recipe serves four large servings.

Wondering where your dollars go? Mrs. Henderson? Thirty-five percent of every dollar goes for food—and the highest cost food item is gas. On an average, the average driver uses 100 dollars' worth of gas every year. That's a lot of money. But you can save money by buying gas from United Gas. United Gas is the only gas company in the South that has a "gas audit" service. They will come to your home and check your gas meter. If it's not working right, they will fix it for you. And they will also check your gas lines for leaks. If you find a leak, they will fix it for you. So, if you want to save money on gas, call United Gas. They will be glad to help you.

United Gas...
SERVING THE South

United Gas
SERVING THE South
It's the same way in the natural gas business. Hundreds of wells in many gas fields are required to assure dependable natural gas service for the military installations, homes, stores and industries obtaining their natural gas from the lines of our company. New fields are being added to the United Gas system all the time—through exploration and drilling, or through the purchase of gas from the owners of known reserves. The constant aim of our company is to provide adequate supplies of gas for the present and future needs of the area we serve. THERE'S PLENTY FOR YOU AND INDUSTRY, TOO

Personals.....

Mrs. C. M. Mendenhall is here on a visit to her sister, Mrs. Walter Dugan, at the Dugan home, 1200 Oak St.

Mrs. C. Drury Blair left on Tuesday for New Orleans and will be absent for several days.

Mr. and Mrs. E. E. Spangenberg, of New Orleans, have returned from an enjoyable fishing trip to Florida.

C. Drury Blair is in Memphis, Tenn., on a business trip.

Mr. and Mrs. W. L. Reader, of Baton Rouge, La., were visitors to Mr. and Mrs. M. J. Garcia on Sunday. The Readers formerly made their home here.

Mrs. Max Kohler spent last week in Baton Rouge, La., as the guests of friends and to attend the wedding of another friend.

Mr. and Mrs. Eugene Mogabgab have returned from a motor trip to Atlanta, Ga., after a visit to their daughter and son-in-law, Mr. and Mrs. Robert D. Denny. The Denny's, together with their two children, Molly and Jean, made the return trip with the Mogabgab's and will be here for a couple of weeks.

Joe Viguerie is a guest of Mr. and Mrs. Walter Dugan until the completion of his summer home on Pass Christian Island, whence he will take up his residence there.

Mr. E. J. Gilley has been in Hartford, Conn., for the past three weeks and will join Mrs. Gilley and their two children at the home of her mother, Mrs. Ernest Allgeyer, before returning to their home in New Orleans.

Mrs. George Bohn, Jr., of New Orleans is a guest of Mr. and Mrs. Herbert Ratenberg, of Beach Blvd., in Waveland. Mrs. Bohn will return home on Thursday. She will be entertained at a luncheon at the Yacht Club on Wednesday with Mrs. Ratenberg as hostess.

Mr. and Mrs. Gerald Kennedy, Jr., and two children, Rip and Basil, are spending a week's vacation in Fort Valois, Florida.

Dr. and Mrs. Aynaud Habert, Jr., and two children of New Orleans were the guests of Mrs. S. M. Mayer and Mrs. F. J. Trantour.

Dr. John Dick, Steven Munson of New Orleans and Dr. Dupont of Houma have taken a house in Bay St. Louis for a month's vacation.

Mrs. and Mrs. N. L. Carter returned on Sunday after a two weeks motor trip through Florida.

Mrs. Verna Presley is enjoying a two week's vacation spent at the home of her sister in Austin, Texas.

Mr. and Mrs. Erle Kirkpatrick have returned from an extensive trip to various points in the West.

Mrs. Allen Meallie, of New Orleans was the week end guest of her sister and brother-in-law, Dr. and Mrs. Walter Have at their home in Waveland.

Mr. and Mrs. J. A. Orr and small son, of Clermont Harbor spent Saturday visiting in Hattiesburg.

Mrs. C. Drury Blair and Mrs. E. C. Samuel were heard over Station WLOX (Biloxi) on Monday. Their talk was relative to information concerning the election.

Mr. and Mrs. Millard Toulme spent the past week end in New Orleans, where they visited relatives. They also visited a niece who had undergone a surgical operation during the week.

Dr. and Mrs. Ernest Samuel spent Wednesday in New Orleans.

Mrs. Emily Hosmer and Harry Hosmer, mother and brother of Mrs. Rene deMontuclin, arrived on August 5, to spend about ten days with the deMontuclin's. They will return to Dallas next week.

Clementine Barbino Died August 5 at Her Home

Clementine Barbino died on August 5, at 11:35 a.m. at her residence, 229 Bismarck Street, in Bay St. Louis. The deceased had been ill for some time and was in her third year. She was a native of France, daughter of St. Joseph's, and was survived by the John Barbino. Services were held from the residence on Tuesday, August 7, at 4:00 p.m. Religious services were conducted from St. Rose de Lima Catholic Church with interment in St. Mary's cemetery.

Miss Barbino was a member of the Ladies Perserverance whose members took part in the funeral services. She will be remembered as having taught school at the Valene C. Jones School for a number of years.

HOT, DRY WEATHER AIDS IN CONTROL OF WEEVILS

During the past week, hot dry weather has been favorable for cotton culture and setting of fruit. This same weather has also aided in boll weevil control as the percentage of infestation is slightly lower this week. Examinations by Plant Board inspectors and federal entomologists in 702 fields in 36 counties showed 455 infested with an average infestation of 10 per cent, which compares with 11 per cent last week, and 37 per cent this time last year.

4-H MEMBERS TO CAMP

Two Lincoln County 4-H members, Betty Willoughby of Bogie Chitto and Verdie C. Nations, Jr., of Brookhaven, will represent Mississippi 4-H groups at the American Youth Foundation leadership training camps at Shelby, Michigan, in August. A 4-H boy and girl are selected each year to receive Danforth Scholarships provided by the Ralston Purina Co., of St. Louis. Selections are made on the basis of athletic activities, scholastic standing, leadership in 4-H Club work and character.

The boys who are fighting in Korea cannot help it if they use harsh names when they refer to the profiteers and hoarders in the states.

NEW KIND OF POTATOES
AUCTIONEER FOR \$160
Shades of the gold rush days of 1849 came suddenly to life and prospectors swept into Brookhaven and paid \$160 for the big gold nugget. Instead of a rich stream of gold ore, it was a big new variety of sweet potato known as the "Gold Rush" grown for the first time in Lincoln County by Mr. and Mrs. Memphis Nevels. A bushel of the new crop potatoes were auctioned off to the highest bidder, and the funds derived from the auction will augment the current Lincoln County Red Cross Disaster Fund Drive.

THANKS THE INDEPENDENT CITIZENS FOR GRAND SUPPORT

It was very gratifying to have received so many votes from the independent voters of Beat 5. I say independent because the support I received and expect to receive in the Second Primary are independent votes; free from the dictates of controlled organizations. It is well known that candidates backed by political groups or organizations always receive their full strength in the First Primary. So now, this being true, I expect the independent voters to back me wholeheartedly in the Second Primary.

In this race there were nine opponents, all fine fellows; — the people though so and divided their votes. That sends me into the run-off. Especially when realizing that each of the votes I received were from independent voters, I am also grateful for having led in five precincts over my opponent who led only in two—the other two were carried by the third candidate.

I led in South Bay, City Hall, Court House, Clermont Harbor and Lakeshore. Mr. Hubbard led in Waveland where he is Alderman and Edwardville. Mr. Favre led in Central School and North Bay. So you see I have reasons for being grateful for the independent voters' support. For your information the votes four years ago in the Second Primary were: Ortte 1434, and Hubbard 886. Winning majority—570.

You will remember Mr. Mitchell mailed each of the citizens a letter giving figures and facts of the last 3½ years record. I also gave you a concise record. Mr. Mitchell said there must be a reason for such great advancement in our County's financial records, there is a reason—Honest, efficient and sincere operation of the Board of Supervisors and Clerk of Court. Please remember I was President of the Board of Supervisors during this same 3½ years. And believe me, we all played our part in administering good, clean, honest government.

Now, I sincerely ask you, the voters, who for some reason or other cast your vote for another candidate in the First Primary to please give me your deep consideration and vote in the Second Primary. If re-elected, I assure you I will continue to serve to the very best of your interest. I will co-operate with the Clerk and other Board Members as I have in the past.

Your overwhelming vote in re-electing the Clerk, in a three man race, indicates your approval of the present administration; why take a chance breaking up a good winning team. A team that has stuck together for 3½ years, that played and operated as a team. Two of the members, Mr. Kellar and Mr. Shaw, were re-elected. Already their people realized the necessity of keeping this team together and the Clerk was also re-elected. Surely you, the people of Beat 5 realize that your Supervisor, who is the President of the Board, should also be re-elected. I believe you will do this of course—but, please don't be misled by unfair propaganda by opposing factions of this successful present administration. Certainly due credit goes to the President of any administration—be it a hall club, oil co., a social club or any industrial organization; and if this organization is forging forward surely the President would not be removed or voted out of office—not when such success is constantly being obtained. No! that is not plausible and I don't believe you people will let your President down either—I know you won't because I have confidence in you—I have confidence in your judgment and your sincerity, if I did not believe in you as I do—I would not have asked to serve you in the past and would not be asking you now to please permit me to continue serving you for another term.

We have your county on a cash basis. The auditors records show that in this 3-year period, the county has increased its surplus or net worth \$452,238.83. We are forging forward and getting out of debt. Your bond indebtedness has been reduced \$194,200.00 in three years. If financial conditions continue to improve, we will soon be able to reduce your taxes.

There has been no re-elected; two members of the team have been re-elected. In the 3rd Primary of Beat 5 will elect the third man. Remember, the team that has stuck together for 3½ years, that played and operated as a team. Two of the members, Mr. Kellar and Mr. Shaw, were re-elected. Already their people realized the necessity of keeping this team together and the Clerk was also re-elected. Surely you, the people of Beat 5 realize that your Supervisor, who is the President of the Board, should also be re-elected. I believe you will do this of course—but, please don't be misled by unfair propaganda by opposing factions of this successful present administration. Certainly due credit goes to the President of any administration—be it a hall club, oil co., a social club or any industrial organization; and if this organization is forging forward surely the President would not be removed or voted out of office—not when such success is constantly being obtained. No! that is not plausible and I don't believe you people will let your President down either—I know you won't because I have confidence in you—I have confidence in your judgment and your sincerity, if I did not believe in you as I do—I would not have asked to serve you in the past and would not be asking you now to please permit me to continue serving you for another term.
